## SUMMARY

Passionate and detail-oriented Frontend Developer with a strong foundation in HTML, CSS, JavaScript, React, and Bootstrap. Skilled in building responsive, user-friendly web applications with a focus on UI/UX design, performance optimization, and cross-browser compatibility. A quick learner with a problem-solving mindset, eager to stay updated with the latest technologies and trends. Seeking an opportunity to contribute my expertise in developing visually appealing and high-performing web applications.

## WORK EXPERIENCE

- **ADDIS IT SOLUTIONS** JULY 2024 - PRESENT  
Internship Training Experience  
  
Trained and mentored interns in frontend development, covering HTML, CSS, JavaScript, React, and Bootstrap. Guided them through real-world projects, UI/UX design, and performance optimization. Conducted code reviews and debugging sessions to enhance their coding skills. Helped interns build responsive and user-friendly web applications.
  - **Bluez Infomatic solutions** Jan 2024 - Mar 2024  
Web Developer Internship

## PROJECTS

- **ADDIS IT SOLUTION WEBSITE**

Developed a modern and responsive website for Addis IT Solution to display IT services and enhance brand visibility.
  - **CLASSIC LADIES HOSTEL WEBSITE**

Created a modern and user-friendly website for a ladies hostel with facility details, contact form, and mobile responsiveness.
  - **THULASI RESORT WEBSITE**

Built a responsive and attractive resort website with an image gallery and detailed information about services and surroundings.
  - **ADDIS MEDICALS WEBSITE**

Developed a clean and functional website for a medical store with service listings and contact details.
  - **IJANA - CONTRIBUTED**

Helped in designing and structuring the IJANA journal website, focusing on simple layout and easy content access.
  - **SUGUN FIBRES WEBSITE**

Created a professional, responsive site for a fibre company to showcase products and improve online presence.
